

## Course Announcement: **Curing Patient Misidentification**

Ensuring that patient identification is completed efficiently and correctly can significantly improve patient safety, help prevent medical identity theft, and increase revenue. This course discusses traditional patient identification solutions and biometric patient identification solutions. Biometric solutions have proven to be more effective in many ways than traditional methods.

### After completing this course, you will be able to:

- Determine the role that patient misidentification can play in causing medical errors
- Name errors that can be caused by patient misidentification
- Compare traditional patient misidentification solutions to biometric solutions
- Identify ways to avoid outpatient misidentification mistakes

Healthcare Business Insights

### Registration:

- Participants can earn 0.5 CPE credits in Specialized Knowledge & Application field of study.
- Registration is available by phone at [888.700.5223](tel:888.700.5223) or at [healthcarebusinessinsights.com](http://healthcarebusinessinsights.com).

### Additional Information:

- **Advanced Preparation:** None
- **Prerequisites:** None
- **Program Level:** Basic
- **Delivery Method:** QAS Self-Study

### Refunds and Concerns:

For information regarding refunds, concerns, and/or program cancellation policies, please contact our offices at [888.700.5223](tel:888.700.5223) or email us at [contact@hbinsights.com](mailto:contact@hbinsights.com).
